-
- A dot plot showing the number of people who have been vaccinated against COVID-19 in different countries. The y-axis lists four countries: United States, United Kingdom, Germany, and France. The x-axis represents the number of people, ranging from 0 to 100 million. The United States has the highest number of vaccinations, followed by the United Kingdom, Germany, and France.
- | Country | Number of people (millions) |
|----------------|-----------------------------|
| United States | ~85 |
| United Kingdom | ~65 |
| Germany | ~55 |
| France | ~45 |
